

GROWLUSH Aqua/Water Tank

Instruction

Contents

Aqua Tank Cover

Unzip the cover and lay it out in front of you

Support Legs

Around the edges of the cover you Will Find vertical pockets,insert the support legs.

Rim Supports

The rim supports are black tubes with a metal connector,these are inserted in the pockets on the inside around the top rim of the aqua tank

Bottom Tap

The bottom tap comes with 2 rubber washers,ensure one washer is used on the outside and one on the inside, make sure the tap connection is tight and a good sealis formed

Top Overflow

Again ensure the rubber washers are placed inside and outside of the Aqua Tank,tighten firmly to ensure a good seal
