ULTRA MASK POWER FLUSH CAPSULES

Power Flush All Natural Herbal Tea and Capsules are the highest quality products in the entire detox industry. All our herbs are certified “Kosher & Parve”, the only manufacturer to carry this lofty certification. The herbs we use are the most powerful detoxifying herbs you can buy: dandelion (root), burdock (root), red clover (aerial) and yellow dock (root). When using our Power Flush Capsules in conjunction with our Ultra Mask 1 Hour Liquid Formula, (due to extremely high toxin levels) finish using the capsules 1 hour prior to using Ultra Mask. If using the capsules alone, just follow the product instructions that are written on the box. Power Flush Capsules come with creatine monohydrate capsules to insure your urine sample has at least 20ng/dl or creatinine. A reading below 20 ng/dl and your urine sample will be labeled “Dilute”. The vitamin B complex capsules help to add colour (yellow) to your sample.

INSTRUCTIONS FOR USE

For optimal results, avoid all toxins* 24-72 hours prior to using Power Flush. Drinking plenty of water the days prior to using Power Flush will help lower your body's level toxins.

1. Take one packet of seven herbal capsulae with a 20 oz (approx. 600 mL) glass of water. Wait 20 minutes and take another packets of herbal capsules with 20 oz (approx. 600 mL) glass of water. Wait another 20 minutes and take the final packet of herbal capsules and the packet of vitamin B-complex and creatine monohydrate capsules with 20 oz (approx. 600 mL) glass of water.
2. Finish taking the capsules shortly before the time you wish to be cleansed of toxins. Power Flush effectively removes all toxins for up to five hours after ingestion.

TIP: For 24 hours prior to your test and to minimise toxins in the urine avoid physical activity such as the gym or manual labour. Avoid the spa or sauna 24 hours prior. Be a “couch potato” and eat ice-cream during this time... (slows metabolism)

*Seek medical advice from your health care professional if you have any concerns regarding prescribed medications

ULTRA MASK 1 HOUR LIQUID FORMULATION

Ultra Mask 1 Hour Liquid Formulation is a carbohydrate based liquid “masking agent” that masks any toxins present in the urine. The formula works in two ways. First it redirects the bulk of the toxins to your colon instead of your kidneys and urine. Second, it prevents the metabolites present in your urine from binding to the drug substance found on most urine tests. It is the binding of metabolites and drug substrates that triggers a positive test result. Like of POWER FLUSH herbal Tea and Capsules, Ultra Mask contains both creatine monohydrate and vitamin B complex vitamins.

INSTRUCTIONS FOR USE

1. Shake bottle for about 15 seconds. Drink entire contents of bottle.
2. 15 minutes later, refill bottle with water and drink.
3. That's it! For the next four hours you're good to go.

To obtain optimal results with Ultra Klean detox formulas, it is imperative you closely follow these guidelines:

1. If possible, drink as much water as possible the days prior to using any of our Ultra Klean products. This helps your body excrete toxins from the body. Steam rooms and saunas are also a great way to excrete toxins from the body, but do so only up to 24 hours before your test.
2. On the day you intend to use Ultra Mask 1 Hour Liquid Formula, adjust your water consumption so that your body is properly hydrated. If you're over hydrated your urine sample will be dilute. If you're dehydrated, the formula will not effectively flush and/or mask toxins. A good rule of thumb is to drink about one glass of water per hour for proper hydration.
3. Avoid ALL TOXINS for a least 24 hours and preferably longer prior to using Ultra Klean products. Also avoid medications 24 hours prior to using Ultra Klean products, since many prescription and over-the-counter medications will produce false positive test results.
4. Avoid golden seal (perennial herb). Avoid alcohol within 24 hours of using Ultra Klean (due to dehydration).

As we no longer purchase this product directly from UltraKlean, Aquaponics WA & Hydroponic Xpress are no longer able to offer money back guarantee. We apologise for any inconvenience.
