

Dosage & Storage

Do not keep bottle in a refrigerator or freezer. Keep away from magnets and magnetic fields such as computers and microwaves.

Kept in a dark place such as a pantry or medicine cabinet as Colloidal Silver is light sensitive. Store only in dark glass or 'PET' plastic containers. SilverHealth use 'PET' plastic for convenience of transportation & safety if dropped. This is a specially manufactured plastic for minerals. Do not store in normal plastic containers.

DOSAGE

Oral dosages vary. For Preventative Reasons begin with the recommended amount of one tablespoon (10 ml) per day. Use half this amount for young children (5 ml) and one fourth for babies (2½ ml) 1 teaspoon.

If a person feels symptoms of flu, cold or infections starting or any of these have already taken hold of you, then you should take 50 ml once or twice daily for 2 days and then revert back to normal daily dosage.

There is **absolutely NO danger of overdosing** so err on the side of excess. Prevention is the key so as to avoid a sudden, major outbreak of some germ in such numbers that it overwhelms the combined defences of an immune system. So use it, don't lose it.

Colloidal Silver can be used orally, rectally, vaginally, atomised into the nose and lungs. For eyes and ears a dropper can be used.

ANIMALS / PETS (Including Birds & Fish)

For pets spray or pour Colloidal Silver on food and into their water. You may also use an eyedropper and put the solution down the throat and into the eyes or ears. For fish add 5 ml per 25 litres, helps control algae in fish tanks and boosts their immune system.

COST SAVINGS

The average family would purchase a variety of products for all the ailments described in this leaflet, however, by using our all natural **Colloidal Silver** and **Coleen's Colloidal Silver Cream**, family savings will be substantial.

WHAT'S IN OUR COLLOIDAL SILVER

Only purified water and 99.99% pure silver which are converted into particles so minute that they can be utilised by living cells. Essential minerals are obtained through fruit and vegetables; silver is one of these essential minerals which is lacking in our processed fruits of today.

Colloidal Silver Uses

COLLOIDAL SILVER is an **exceptional natural antibiotic that kills viruses, fungi and bacteria.** Colloidal silver is proven to be useful in treating over **650** different ailments/conditions. The following are **just some** of the diseases and medical problems that Colloidal Silver has been used against:

Flu
Acne
Boils
Tinea
Warts
Burns
Lupus
Colitis
Thrush
Herpes
Cystitis
Malaria
Eczema
Arthritis
Gastritis
Candida
Sunburn
Allergies
Shingles
Diabetes
Dandruff
Fibrosis
Chilblains
Appendicitis
Athlete's Foot
Blood Poisoning
Bladder Infection

Stomach
Ulcerated
Hay fever
Tonsillitis
Toxaemia
Dysentery
Dermatitis
Meningitis
Ringworm
Indigestion
Pneumonia
Gonorrhoea
Encephalitis
Septicaemia
Scarlet Fever
Rheumatism
Tuberculosis
Lime Disease
Lymphangitis
Conjunctivitis
Staph Infection
Lice & its Eggs
Strep Infections
Virus (Common)
Thyroid Infection
Whooping Cough
Parasitic Infection

History & Important Information

BACKGROUND HISTORY

The use of silver goes back to ancient Egypt where it was used to prevent and cure disease.

Used in the Middle Ages to treat wounds in battle by placing silver wire into open wounds.

American settlers often placed silver dollars in milk to delay spoiling.

Royalty used silver plates, bowls and utensils almost exclusively when eating; small particles of silver would pass into the body via these utensils, which made them much healthier than the rest of the community.

IMPORTANT INFORMATION

Correctly manufactured **Colloidal Silver** should be completely tasteless, colourless and odourless. Great for kids of all ages. You can add it to their drink & they wouldn't know.

It has no side effects and serves as a second immune system. Pregnant and lactating women can also benefit from its use with complete safety for mum & baby.

You cannot overdose on Colloidal Silver and will not react with any prescribed medications.

Colloidal Silver helps repair damaged cells and accelerates healing.

Kills most one celled germs within 6 minutes giving them no chance to mutate into a resistant strain.

Colloidal Silver is toxic to all tested species of bacteria, fungi, parasites and many viruses but totally non-toxic to humans and animals.

ANTIBIOTICS

Because of the overuse of antibiotics we have created strains of super microbes that are unstoppable by antibiotics. Penicillin and its descendants have side effects that cause problems such as nausea, abdominal pain and Candida.

The alternative is **Colloidal Silver** which is both a natural treatment and a preventative measure for most infections, with no side effects at all. It is nature's Natural Antibiotic. Modern antibiotics can also kill good bacteria and damage tissue, liver, kidney and many organs, Colloidal Silver does not kill good bacteria and it repairs damaged tissue.

Colloidal Silver is one of the Essential Minerals which our body needs.

What Else Can I Use It For?

WHAT DO I USE IT FOR ??

Internally: Any food poisoning, gastro, bacterial, virus or fungi infections.

Externally: Can be used directly on open wounds, abrasions, sores, burn to eliminate surface infections and it does not burn or sting. Increases healing time, particularly noticeable from fourth day on.

ECZEMA, DERMATITIS, PSORIASIS & SKIN RASHES

Buy a 125 ml spray bottle of **SilverHealth** Colloidal Silver and spray directly onto affected area or simply dab Colloidal Silver over the affected area. Overnight cover with gauze moistened with Colloidal Silver; hold this on with a light bandage. Also very good for nappy rash (no chemicals).

OR

Use, our **All Natural Coleen's Colloidal Silver Protecting Cream** which has no Petro Chemicals in it such as Propylene Glycol or Sodium Laurel Sulphate. Repeat this twice daily until cleared. Also great for mosquito bits, takes the sting out. Use it as a **natural moisturiser** (no chemicals).

ALL BURNS inc SUNBURN

Extremely effective, using the **SilverHealth** Colloidal Silver 125 ml spray, simply spray frequently throughout the day. If done quickly & frequently enough you can minimise blistering & scarring. More and more hospitals & burns units are using Colloidal Silver worldwide. It is now being sold in bandaids and bandages.

WATER PURIFICATION

Astronauts on the Space Shuttle and most overseas major airlines use Silver Water Filter systems to purify drinking water because of its bacteria killing qualities. Therefore by adding Colloidal Silver to your drinking water it will kill bacteria and give you safe drinking water, just add 20 ml per 2 litres.

SURFACE SPRAY & FOOD PROTECTION

Instead of using chemically based anti-bacterial surface sprays, use our Colloidal Silver 125 ml spray, it's all natural which means no chemicals are getting into our body. Also if sprayed into open food cans/containers or onto food that needs to be kept for a while, Colloidal Silver will protect it from harmful bacteria and therefore extend the food life.
